Let us "REMANUFACTURE" your SCHERR-TUMICO 30" Comparator for a fraction of the cost of a new one.

Above: Actual photo of customer's 26 year old 2600 Series 30" Comparator when received at S-T Industries to be remanufactured.

Above: Actual photo of the same 2600 Series 30" Comparator after being remanufactured at S-T Industries, ready to ship back to the customer.

When S-T Industries remanufactures your 2600 Series 30" Comparator, it is returned to you in "As New Condition" with a certificate to NIST. The remanufactured price includes installation and training at your facility and a new 2-year warranty.

A complete 2500/2600 remanufacture consists of the following:

The customer must send the unit to S-T freight prepaid. We completely strip down the unit, repair any damage to the body, enlarge the side door to current specs, and totally repaint the body to current paint specs. Rebuild the entire stage assembly, regrind or replace the table top and bearing ways, install new bearings, new .00005"/.001mm Acu-Rite glass scales, new bellows, new surface illuminator assembly, new long-life tungsten halogen bulb assemblies for profile and surface illumination, new protractor ring with digital readout Q axis in DRO, new glass screen, new curtains, replace all required lenses in the lamphouse and replace all electrical components as required. Repair of the magnification lenses is not included in the rebuild.

The remanufactured 2500/2600 unit is as new--it cannot be distinguished from a new unit. The unit is returned to the customer freight collect. Prices include installation and training at the customer's facility and includes a new 2-year warranty.

REMANUFACTURED COMPARATOR AND DRO
