

The MDG series of modular indicating depth gages are available as fixed or adjustable models. This versatile design allows the mixing and matching of components to build a gage which can suit any application. Designed to replace many dedicated flush pin gages, these gages feature a unique self-mastering mechanism, further eliminating the requirement for a setmaster. An offset contact can be used to check groove depths or locations.

Features

- ✓ Modular design offers maximum versatility.
- ✓ 2 frame styles to suit any application.
- ✓ Heavy duty tube.
- ✓ Self-mastering adjustable and fixed models.
- ✓ A single gage can replace many flush pin gages.
- ✓ Accommodates ANSI AGD #1, #2 dial or digital indicators.
- ✓ Precision ground, stress relieved, and hardened frames and pins.
- ✓ Indicator is sold separately.

To order MDG series depth gages (part # on next page):

1. Specify frame part # / bar length.
2. Specify pin length by solid pin part # or threaded pin part #.
3. Specify choice of indicator housing: #1 or #2 adjustable self-mastering housing - pull down, #1 or #2 adjustable self-mastering housing - pull up, #1 or #2 fixed series self-mastering housing.
4. Add desired options: extended rest sets, reversible thread-in contact, choice of any #2 "High Amplification", #1 or #2 "Traditional" dial indicators, or digital indicator.
